**Princely Virtues in the Middle Ages, 1200-1500**-István Pieter Bejczy 2007 The contributors to this volume examine the diverse roles played by moral virtues in the political writings of the Later Middle Ages. Medieval political thought has a long tradition of scholarship, and its ethical dimension has always received sustained attention. This volume specifically concentrates on the meaning and function of virtues in a political context, a theme which has thus far been neglected. The authors deal with Latin texts (occasionally in combination with vernacular ones) from the 13th to 15th centuries that define, legitimize, or criticize secular rule by using catalogues of virtues, originating from ancient philosophy as well as Christian moral theology. The medieval texts under discussion are of French, German, English, Italian, and Spanish origin, and vary from educational treatises and historiography to moral theology and political philosophy.

**News and Politics in Early Modern Europe (1500-1800)**-Joop W. Koopmans 2005 This volume presents thirteen contributions relating to various aspects of the relationship between news and politics in early modern Europe. A growing range of printed news media started interacting during this period, affecting the political culture of the time. This is clearly illustrated by the contents of this volume. In

addition to oral and written forms of news distribution, all sorts of printed pamphlets, newspapers, news books and other periodicals examining the widely varying facets of the interaction between news and politics are presented. There are various other sources which also shed light on this interaction, such as the memoirs of politicians, festival books, political songs and theatre texts. These sources, drawn on by the history of the press to a lesser degree, are discussed in connection with questions about propaganda, censorship, the formation of public opinion, news suppliers and political networks. The essays offer a stimulating overview of the changes and continuity in this field.
