Monoculture-F. S. Michaels 2011-04-25 Winner of the 2011 George Orwell Award. One of The Atlantic's top psychology books of 2011. As human beings, we've always told stories: stories about who we are, where we come from, and where we're going. Now imagine that one of those stories is taking over the others, narrowing our diversity and creating a monoculture. Because of the rise of the economic story, six areas of your world - your work, your relationships with others and the environment, your community, your physical and spiritual health, your education, and your creativity - are changing, or have already changed, in subtle and not-so-subtle ways. And because how you think shapes how you act, the monoculture isn't just changing your mind - it's changing your life. In Monoculture, F.S. Michaels draws on extensive research and makes surprising connections among disciplines to take a big-picture look at how one story is changing everything. Her research and writing have been supported by the Social Sciences and Humanities Research Council of Canada, the Killam Trusts, and regional and municipal arts councils. Michaels has an MBA, and lives and writes in British Columbia.

In His Presence-Elisabeth Seiter; Alma Lauben 2013-01-31 This book is only possible through the will of God. The inspirational messages given to us at times are very evident in this story and are meant for all. God can and will work through anyone whose heart is open and whose mind is still enough to hear that gentle voice speak to them. It is then that we realize how much our heavenly Father loves each one of us and wants us all to have a close relationship with Him. My name is Elisabeth, and this is my journey with the Lord. I was given this opportunity to share a part of my life with you. Alma, my sister, is truly blessed and has accompanied me through this journey. Some of the pictures and most of the inspirational messages associated with the pictures were given to Alma for us to use in this book. The pictures are all a gift from God. For this we humbly thank Him and our Blessed Mother, for allowing us to be a part of God’s plan.

Trans(in)fusion-Ranjan Ghosh 2020-10-08 Trans(in)fusion is a highly original book that tries to radicalize our ways of ‘critical thinking’ across disciplines. The book, refreshingly, brings into play critical philosophy, literary criticism, studies in mathematics, physics, chemistry and developmental biology, and various other disciplines and epistemes to set up a tenure and tenor of ‘critical thinking’. The book is an exclusive intervention in how thinking across traditions and systems of thought can generate distinct interpretive experiences. It questions, in a unique transcultural and transversal bind, our ways of hermeneutic and literary-cultural thinking. Trans(in)fusion resets the dialectics between text and theory.

Too Much Free Speech?-Randall P. Bezanson 2012-10-15 In Too Much Free Speech?, Randall P. Bezanson takes up an essential and timely inquiry into the Constitutional limits of the Supreme Court's power to create, interpret, and enforce one of the essential rights of American citizens. Analyzing contemporary Supreme Court decisions from the past fifteen years, Bezanson argues that judicial interpretations have fundamentally and drastically expanded the meaning and understanding of "speech." Bezanson focuses on judgments such as the much-discussed Citizens United case, which granted the full measure of constitutional protection to speech by corporations, and the Doe vs. Reed case in Washington state, which recognized the signing of petitions and voting in elections as acts of free speech. In each case study, he questions whether the meaning of speech has been expanded too far and critically assesses the Supreme Court's methodology in reaching and explaining its expansive conclusions. Bezanson's measured approach and deep insights reveal the complexities of speech in the realms of human behavior and constitutional law. His wide-ranging analysis of relevant Supreme Court cases arms readers with the facts and perspectives necessary to reach independent conclusions about whether the Court's conduct befitted the independent judicial branch and to understand the consequences of its decisions for a representative democracy.

This House Has Fallen-Karl Maier 2009-04-29 To understand Africa, one must understand Nigeria, and few Americans understand Nigeria better than Karl Maier. This House Has Fallen is a bracing and disturbing report on the state of Africa's most populous, potentially richest, and most dangerously dysfunctional nation.Each year, with depressing consistency, Nigeria is declared the most corrupt state in the entire world. Though Nigeria is a nation into which billions of dollars of oil money flow, its per capita income has fallen dramatically in the past two decades. Military coup follows military coup. A bellwether for Africa, it is a country of rising ethnic tensions and falling standards of living, very possibly on the verge of utter collapse -- a collapse that could dramatically overshadow even the massacres in Rwanda.A brilliant piece of reportage and travel writing, This House Has Fallenlooks into the Nigerian abyss and comes away with insight, profound conclusions, and even some hope. Updated with a new preface by the author.

Working-Class Hollywood-Steven J. Ross 2020-07-07 This path-breaking book reveals how Hollywood became "Hollywood" and what that meant for the politics of America and American film. Working-Class Hollywood tells the story of filmmaking in the first three decades of the twentieth century, a time when going to the movies could transform lives and when the cinema was a battleground for control of American consciousness. Steven Ross documents the rise of a working-class film movement that challenged the dominant political ideas of the day. Between 1907 and 1930, worker filmmakers repeatedly clashed with censors, movie industry leaders, and federal agencies over the kinds of images and subjects audiences would be allowed to see. The outcome of these battles was critical to our own times, for the victors got to shape the meaning of class in twentieth- century America. Surveying several hundred movies made by or about working men and women, Ross shows how filmmakers were far more concerned with class conflict during the silent era than at any subsequent time. Directors like Charlie Chaplin, D. W. Griffith, and William de Mille made movies that defended working people and chastised their enemies. Worker filmmakers went a step further and produced movies from A Martyr to His Cause (1911) to The Gastonia Textile Strike (1929) that depicted a unified working class using strikes, unions, and socialism to transform a nation. J. Edgar Hoover considered these class-conscious productions so dangerous that he assigned secret agents to spy on worker filmmakers. Liberal and radical films declined in the 1920s as an emerging Hollywood studio system, pressured by censors and Wall Street investors, pushed American film in increasingly conservative directions. Appealing to people's dreams of luxury and upward mobility, studios produced lavish fantasy films that shifted popular attention away from the problems of the workplace and toward the pleasures of the new consumer society. While worker filmmakers were trying to heighten class consciousness, Hollywood producers were suggesting that class no longer mattered. Working-Class Hollywood shows how silent films helped shape the modern belief that we are a classless nation.

The Food and Feelings Workbook-Karen R. Koenig 2010-03-01 An extraordinary, powerful connection exists between feeling and feeding that, if damaged, may lead to one relying on food for emotional support, rather than seeking authentic happiness. This unique workbook takes on the seven emotions that plague problem eaters — guilt, shame, helplessness, anxiety, disappointment, confusion, and loneliness — and shows readers how to embrace and learn from their feelings. Written with honesty and humor, the book explains how to identify and label a specific emotion, the function of that emotion, and why the emotion drives food and eating problems. Each chapter has two sets of exercises: experiential exercises that relate to emotions and eating, and questionnaires that provoke thinking about and understanding feelings and their purpose. Supplemental pages help readers identify emotions and chart emotional development. The final part of the workbook focuses on strategies for disconnecting feeling from food, discovering emotional triggers, and using one’s feelings to get what one wants out of life.

Pilgrimage to Crete-W.E. Welbourne 2016-06-24 At the outset of the Second World War on September 1, 1939, young Aussie diggers are rushed to assist Britain in its hour of need to the nearest European war zone in the Middle East and North Africa. My Uncle Arthur, young Arty is one of these a sapper with 6 years militia training as an army engineer. The ANZAC forces sweep through Libya, from Egypt to Benghazi, defeating superior numbers of heavily armed Italians the first Allied land victory of the war. Ill-equipped and lacking promised supplies, the ANZACs are then inappropriately redirected from North Africa to Greece to help the Greeks face the overwhelming German advance. Retreating to Crete, Arty is captured in the Battle of Crete and becomes a POW. I am motivated to visit the conflict zones of Gallipoli and to follow my uncles wartime exploits from the time of his capture in June 1941 until his third and final escape from a German work camp in Czechoslovakia in 1945. Modern day travel makes it possible to visit not only the more recent wartime scenes of Central Europe, but also to visit the sites of classical civilizations to discover the history, art and cultures of the Mediterranean. Accompanying me on my journey is Avril who was born in England and has vivid wartime memories of the conflict from her childhood.

Genesis Code-Jamie Metzl 2014-11-04 Blue Magic, the latest designer drug linked to a rash of overdoses, might explain the needle mark on the arm of a young woman found dead in her Kansas City apartment. But when Star reporter Rich Azadian digs deeper, the clues point to a far more explosive story: MaryLee Stock was a special protégée of evangelical megapastor and power broker Cobalt Becker, who is poised to deliver his followers and the presidency to a firebrand right-wing senator in the next election. When Azadian sets out to prove that MaryLee’s death was no accident and she may have been carrying Becker’s genetically enhanced baby, the stakes become life itself. In 2023 America—bankrupt, violently divided by the culture wars, and beholden to archrival China—the rules of the game are complicated. With the danger mounting, the dead bodies of young women piling up, Chinese agents circling, and the US Department of National Competitiveness moving in to quash his investigation, Azadian’s only option is to go rogue, assemble a team of brilliant misfits like himself, and begin the fight of his life to find out who is killing these women and why, and if any others like them may still be alive. The Lost Book of Moses-Chanan Tigay 2016-04-12 One man’s quest to find the oldest Bible scrolls in the world and uncover the story of the brilliant, doomed antiquarian accused of forging them. In the summer of 1883, Moses Wilhelm Shapira—archaeological treasure hunter and inveterate social climber—showed up unannounced in London claiming to have discovered the oldest copy of the Bible in the world. But before the museum could pony up his £1 million asking price for the scrolls—which discovery called into question the divine authorship of the scriptures—Shapira’s nemesis, the French archaeologist Charles Clermont-Ganneau, denounced the manuscripts, turning the public against him. Distraught over this humiliating public rebuke, Shapira fled to the Netherlands and committed suicide. Then, in 1947 the Dead Sea Scrolls were discovered. Noting the similarities between these and Shapira’s scrolls, scholars made efforts to re-examine Shapira’s case, but it was too late: the primary piece of evidence, the parchment scrolls themselves had mysteriously vanished. Tigay, journalist and son of a renowned Biblical scholar, was galvanized by this peculiar story and this indecipherable man, and became determined to find the scrolls. He sets out on a quest that takes him to Australia, England, Holland, Germany where he meets Shapira’s still aggrieved descendants and Jerusalem where Shapira is still referred to in the present tense as a “Naughty boy”. He wades into museum storerooms, musty English attics, and even the Jordanian gorge where the scrolls were said to have been found all in a tireless effort to uncover the truth about the scrolls and about Shapira, himself. At once historical drama and modern-day mystery, The Lost Book of Moses explores the nineteenth-century disappearance of Shapira’s scrolls and Tigay's globetrotting hunt for the ancient manuscript. As it follows Tigay’s trail to the truth, the book brings to light a flamboyant, romantic, devious, and ultimately tragic personality in a story that vibrates with the suspense of a classic detective tale.

Auto Biography-Earl Swift 2014-05-06 A brilliant blend of Shop Class as Soulcraft and The Orchid Thief, Earl Swift's wise, funny, and captivating Auto Biography follows an outlaw auto dealer as he struggles to save a rusted '57 Chevy—a car that has already passed through twelve pairs of hands before his—while financial ruin, government bureaucrats and the FBI close in on him. Slumped among hundreds of other decrepit hulks on a treeless, windswept moor in eastern North Carolina, the Chevy evokes none of the Jet Age mystique that made it the most beloved car to ever roll off an assembly line. It's open to the rain. Birds nest in its seats. Officials of the surrounding county consider it junk. To Tommy Arney, it's anything but: It's a fossil of the twentieth-century American experience, of a place and a people utterly devoted to the automobile and changed by it in myriad ways. It's a piece of history—especially so because its flaking skin conceals a rare asset: a complete provenance, stretching back more than fifty years. So, hassled by a growing assortment of challengers, the Chevy's thirteenth owner—an orphan, grade-school dropout and rounder, a felon arrested seventy-odd times, and a man who's been written off as a ruin himself--embarks on a mission to save the car and preserve long record of human experience it carries in its steel and upholstery. Written for both gearheads and Sunday drivers, Auto Biography charts the shifting nature of the American Dream and our strange and abiding relationship with the automobile, through an iconic classic and an improbable, unforgettable hero.
