The Wisdom of Stability-Jonathan Wilson-Hartgrove 2010-05-01 Voted Best Book of 2010 by Englewood Review of Books "In whatever place you live, do not easily leave it." -Abba Anthony In an age where we might email a friend in Africa, skype a co-worker in Brazil, and teleconference with people in different time zones—all in one day—the sheer speed of life can be dizzying. Like children stumbling off a merry-go-round, says Jonathan Wilson-Hartgrove, we are grasping for something to anchor our lives in a sea of constant change. In *The Wisdom of Stability*, Wilson-Hartgrove illuminates the biblical and monastic understanding of why staying in one place is both a virtue and good for you. "For the Christian tradition," he writes, "the heart's true home is a life rooted in the love of God." When we cultivate an inner stability of heart - by rooting ourselves in the places where we live, engaging the people we are with, and by the simple rhythms of tending to body and soul - true growth can happen. *The Wisdom of Stability* is a must-read for pastors, leaders, and anyone seeking an authentic path of Christian transformation.

Undressing Cinema-Stella Bruzzi 2012-10-12 From Audrey Hepburn in Givenchy, to sharp-suited gangsters in Tarantino movies, clothing is central to film. In *Undressing Cinema*, Stella Bruzzi explores how far from being mere accessories, clothes are key elements in the construction of cinematic identities, and she proposes new and dynamic links between cinema, fashion and costume history, gender, queer theory and psychoanalysis. Bruzzi uses case studies drawn from contemporary popular cinema to reassess established ideas about costume and fashion in cinema, and to challenge conventional interpretations of how masculinity and femininity are constructed through clothing. Her wide-ranging study encompasses: * haute couture in film and the rise of the movie fashion designer, from Givenchy to Gaultier * the eroticism of period costume in films such as *The Piano* and *The Age of Innocence* * clothing the modern femme fatale in *Single White Female*, *Disclosure* and *The Last Seduction* * generic male chic in *Goodfellas*, *Reservoir Dogs*, and *Leon* * pride, costume and masculinity in 'Blaxploitation' films, *Boyz 'N The Hood* and *New Jack City* * drag and gender confusion in cinema, from the unerotic cross-dressing of Mrs Doubtfire to the eroticised ambiguity of Orlando.

Slightly Bad Girls of the Bible-Liz Curtis Higgs 2008-05-20 Good Women Behaving Badly A spiteful boss, a defiant employee, a manipulative mother, a desperate housewife, an envious sister...honey, we know these women. We've lived with them, worked with them, or caught a glimpse of them in our mirrors. Now let's take a look at their ancient counterparts in Scripture: Sarah mistreated her maidservant, Hagar despised her mistress, Rebekah manipulated her son, Leah claimed her sister's husband, and Rachel envied her fertile sister. They were far from evil, but hardly perfect. Mostly good, yet slightly bad. In other words, these matriarchal mamas look a lot like us. "A Slightly Bad Girl is simply this: a woman unwilling to fully submit to God. We love him, serve him, and worship him, yet we find it difficult to trust him completely, to accept his plan for our lives, to rest in his

sovereignty." —from *Slightly Bad Girls of the Bible*

Amsterdam Stories-Nescio 2012-03-20 No one has written more feelingly and more beautifully than Nescio about the madness and sadness, courage and vulnerability of youth: its big plans and vague longings, not to mention the binges, crashes, and marathon walks and talks. No one, for that matter, has written with such pristine clarity about the radiating canals of Amsterdam and the cloud-swept landscape of the Netherlands. Who was Nescio? Nescio—Latin for "I don't know"—was the pen name of J.H.F. Grönloh, the highly successful director of the Holland-Bombay Trading Company and a father of four—someone who knew more than enough about respectable maturity. Only in his spare time and under the cover of a pseudonym, as if commemorating a lost self, did he let himself go, producing over the course of his lifetime a handful of utterly original stories that contain some of the most luminous pages in modern literature. This is the first English translation of Nescio's stories.

Coronets and Steel-Sherwood Smith 2010-09-07 Too much imagination was tantamount to lying—that's what my grandmother taught me. So when I first got the sense that someone was following me, I ignored it. Who'd waste time following me? Me, being Aurelia Kim Murray, a grad student from California with a passion for ballet and fencing, and a hopelessly romantic vision of the world. I had some to Europe to track down my grandparents' families, but so far I'd had no luck. I couldn't explain the sense of urgency that drove me, even to myself. It has begun that day four months ago when my grandmother lay restlessly in her bed, her eyes glittering with fever as she gripped my hand. "Your mother is too gentle," she's whispered in her aristocratic Parisian French. "I cannot send her to steal the breach." Breach? What breach? With her family? With my grandfather's family? Neither Mom nor I knew anything about Grandmother's family or the handsome man in the silver-framed photo that Gran always kept on her bedside table. "She wouldn't talk about her life before California," my mom has said, as we waited in yet another specialist's office, hoping to find out why, though Gran had recovered from her fever, she had not spoken since. Nothing had come of my search in Paris, or Vienna, and no matter how fast I walked along the grand boulevards, I knew I couldn't outpace my sense of failure. And that's when I met my first ghost. But seeing ghosts wasn't my biggest problem. I was being followed, and I was about to find out more about my lineage than I had ever imagined possible in my wildest, most fanciful dreams...or nightmares.

Google Search and Tools in a Snap does just that. Organized into a series of well-organized, bite-sized, quickly accomplished tasks, the book lets you zero right in on the one particular task you want to accomplish, quickly figure out what to do, do it, and then get back to using the plethora of Google Tools.

Log 41-Jaffer Kolb 2017-11-08 Log 41 both observes the state of architecture today and devotes 114 pages to a special section called Working Queer, guest-edited by architect Jaffer Kolb. From Hans Tursack's commentary on "shape architecture" to Michael Young's valuation of parafiction as a critique of realism; from Lisa Hsieh's examination of modernology in Japan to Cynthia Davidson's conversation with Martino Stierli, Log 41 considers both history and the contemporary. In *Working Queer*, nineteen authors take a similar look at history and the contemporary in articles ranging from homo-fascism in early 20th-century aesthetics to trans gender bathroom typologies for today, as well as methods of work, materials, and mediation that can all be considered queer, or queering, in our pluralist, mediated world.

Applied Mathematics And Modeling For Chemical Engineers-Richard G. Rice 2012-09-25 This Second

Edition of the go-to reference combines the classical analysis and modern applications of applied mathematics for chemical engineers. The book introduces traditional techniques for solving ordinary differential equations (ODEs), adding new material on approximate solution methods such as perturbation techniques and elementary numerical solutions. It also includes analytical methods to deal with important classes of finite-difference equations. The last half discusses numerical solution techniques and partial differential equations (PDEs). The reader will then be equipped to apply mathematics in the formulation of problems in chemical engineering. Like the first edition, there are many examples provided as homework and worked examples.

Don't Call It Sprawl-William T. Bogart 2006-09-25 In Don't Call It Sprawl, the current policy debate over urban sprawl is put into a broader analytical and historical context. The book informs people about the causes and implications of the changing metropolitan structure rather than trying to persuade them to adopt a panacea to all perceived problems. Bogart explains modern economic ideas about the structure of metropolitan areas to people interested in understanding and influencing the pattern of growth in their city. Much of the debate about sprawl has been driven by a fundamental lack of understanding of the structure, functioning, and evolution of modern metropolitan areas. The book analyzes ways in which suburbs and cities (trading places) trade goods and services with each other. This approach helps us better understand commuting decisions, housing location, business location, and the impact of public policy in such areas as downtown redevelopment and public school reform.

Their plan: to create a country of horrors, a supernatural homeland. What he really needs on his side is a sarcastic, amoral, heavily armed necromancer. As luck would have it, this exactly describes his brother. There is, however, a werebadger, if that's something that's been missing from your life.
