**The Perfect Thing**-Steven Levy 2006-10-23 On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company

into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on "the iPod generation." Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of Podheads obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy

explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, The Perfect Thing shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. "Shuffle" is a hallmark of the digital age -- and The Perfect Thing, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive

gadget embodying our era.

**Teen-Proofing**-John Rosemond 2012-11-06 In Teen-Proofing, now available in paperback, he tackles the challenges of raising a teenager with his trademark user-friendly, humorous, and commonsense style. Rosemond lays out a perfectly sound and logical case for recognizing the realities of the teen-parent relationship, forming the foundation, and parenting with the "Long Rope Principle." In short, the author demonstrates how Mom and Dad can avoid the

pitfalls of becoming dictatorial "Control Freaks," skirt the potholes of turning into permissive "Wimps," and enjoy the freedom and rewards of parenting in a controlled (but not controlling) and relaxed manner. Teenagers, Rosemond readily admits, can be a challenge. But infusing young adults with a sense of personal responsibility, then showing them the results of good and bad choices, is a goal every parent can achieve.

As more dogs start dying and people become sick, too, almost everyone is convinced that these

**Reluctant Genius**-Charlotte Gray 2011-08-01 The popular image of Alexander Graham Bell is that of an elderly American patriarch, memorable only for his paunch, his Santa Claus beard, and the invention of the telephone. In this magisterial reassessment based on thorough new research, acclaimed biographer Charlotte Gray reveals Bell's wide-ranging passion for invention and delves into the private life that supported his genius. The child of a speech therapist and a deaf mother, and possessed of superbly acute hearing, Bell developed an early interest in sound. His understanding of how sound waves might relate to electrical waves enabled him to invent the "talking telegraph" before his rivals, even as he undertook a tempestuous courtship of the woman who would become his wife and mainstay. In an intensely competitive age, Bell seemed to shun fame and fortune. Yet many of his innovations—electric heating, using light to transmit sound, electronic mail, composting

toilets, the artificial lung—were far ahead of their time. His pioneering ideas about sound, flight, genetics, and even the engineering of complex structures such as stadium roofs still resonate today. This is an essential portrait of an American giant whose innovations revolutionized the modern world.

**Elsa Schiaparelli**-Meryle Secrest 2014-10-07  
The first biography of the grand couturier, surrealist, and embattled figure (her medium was apparel), whose extraordinary work has stood the test of time. Her style was a social revolution through clothing-luxurious, eccentric, ironic, sexy; synonymous with fashion innovation and chicesse. She was audacious; her fashions were inspired from the whimsical to the most practical-from a Venetian cape of the commedia dell'arte to a Soviet parachute. She collaborated on her designs with some of the greatest artists of the twentieth-century: on jewelry with Jean Schlumberger; on clothes with Salvador Dalí; with Jean Cocteau, Alberto Giacometti; with photographers Man Ray, Horst, Cecil Beaton, and the young Richard Avedon. Her name: Elsa

Schiaparelli. She was known as the Queen of Fashion; a headline attraction in the international glitter-glamour show of the late twenties and thirties; she gave fabulous parties- and went to those given by others; she lived and worked seriously and hard in much-photographed residences and was a guest at others; she knew the "everybodies" who were always "there" and inevitably became one of them herself, feted in Rome (where she was born), Paris, New York, London, Moscow, Dallas, Hollywood, Dublin. Now, Meryle Secrest, acclaimed biographer-whose work has been called "enthraling" (WSJ); "captivating" (WP Book World); "Rich in detail, scrupulously researched, sympathetically written" (NYRB), and who has captured the lives of many of the twentieth-century's most iconic, cultural figures, among them: Frank Lloyd Wright, Bernard Berenson, Leonard Bernstein, Duveen; Richard Rodgers; Modigliani; Stephen Sondheim-gives us the never-before-told story of this most extraordinary fashion designer, perhaps the most extraordinary fashion designer of the twentieth-

century, who in her time was more famous than Chanel.

**Manual of Tests and Criteria**-United Nations 2020-01-06 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the

Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
