War on Sacred Grounds-

Ron E. Hassner 2010-12-15
Sacred sites offer believers the possibility of communing with the divine and achieving deeper insight into their faith. Yet their spiritual and cultural importance can lead to competition as religious groups seek to exclude rivals from practicing potentially sacrilegious rituals in the

hallowed space and wish to assert their own claims. Holy places thus create the potential for military, theological, or political clashes, not only between competing religious groups but also between religious groups and secular actors. In *War on Sacred Grounds*, Ron E. Hassner investigates the causes and properties of conflicts over sites that are both venerated and contested; he also proposes potential means for managing these disputes. Hassner illustrates a complex and poorly understood political dilemma with accounts of the failures to reach settlement at Temple Mount/Haram el-Sharif, leading to the clashes of 2000, and the competing claims of Hindus and Muslims at Ayodhya, which resulted in the destruction of the mosque there in 1992. He also addresses more successful compromises in Jerusalem in 1967 and Mecca in 1979. Sacred sites, he contends, are particularly prone to conflict because they provide valuable resources for both religious and political actors yet cannot be divided. The management of conflicts over sacred sites

requires cooperation, Hassner suggests, between political leaders interested in promoting conflict resolution and religious leaders who can shape the meaning and value that sacred places hold for believers. Because a reconfiguration of sacred space requires a confluence of political will, religious authority, and a window of opportunity, it is relatively rare. Drawing on the study of religion and the study of politics in equal measure, Hassner's account offers insight into the often-violent dynamics that come into play at the places where religion and politics collide.

In lively first-person accounts, they discuss their successes and failures doing fieldwork across rural and urban Japan in a wide range of settings: among religious pilgrims and adolescent consumers; on factory assembly lines and in high schools and wholesale seafood markets; with bureaucrats in charge of defense, foreign aid, and social welfare policy; inside radical political movements; among adherents of "New Religions"; inside a prosecutor's office and the JET Program for foreign English teachers; with journalists in the NHK newsroom; while researching race, ethnicity, and migration; and amidst fans and consumers of contemporary popular culture. Individualism and the Western Liberal Tradition-

Kevin B. MacDonald 2019-09-13 "Individualism and the Western Liberal Tradition argues that ethnic influences are important for understanding the West. The prehistoric invasion of the Indo-Europeans had a transformative influence on Western Europe, inaugurating a prolonged period of what is labeled "aristocratic individualism" resulting from variants of Indo-European genetic and cultural influence.

Voices in the Wilderness-

Jonathan L. Friedmann
2015-01-16 This is an amazing book about Jewish women's rights in the traditional world of religious practice. This is an important ongoing debate in the Jewish world. Women are increasingly claiming the right of religious practice equal to men. In Israel traditional religious practice does not allow women in roles of religious leadership. In this book nine Jewish Reform clergywomen describe their experiences of becoming religious professionals, either rabbis or cantors. Some were born in Israel and others in the United States or Russia, but all found their way to Israel where Orthodox practice is the primary state-supported form of Judaism. Although Orthodox Judaism does not permit women to lead regular services, Reform and Conservative Judaism do. In these nine narratives women tell their personal stories of religious practice within the background of their families and social contexts.

Routledge Handbook of the Law of Armed Conflict

Rain Liivoja 2016-04-28 The law of armed conflict is a key element of the global legal order yet it finds itself in a state of flux created by the changing nature of warfare and the influences of other branches of international law. The Routledge Handbook of the Law of Armed Conflict provides a unique perspective on the field covering all the key aspects of the law as well as identifying developing and often contentious areas of interest. The handbook will

feature original pieces by international experts in the field, including academics, staff of relevant NGOs and (former) members of the armed forces. Made up of six parts in order to offer a comprehensive overview of the field, the structure of the handbook is as follows: Part I: Fundamentals Part II: Principle of distinction Part III: Means and methods of warfare Part IV: Special protection regimes Part V: Compliance and enforcement Part VI: Some contemporary issues Throughout the book, attention is paid to non-international conflicts as well as international conflicts with acknowledgement of the differences. The contributors also consider the relationship between the law of armed conflict and human rights law, looking at how the various rules and principles of human rights law interact with specific rules and principles of international humanitarian law in particular circumstances. The Routledge Handbook of the Law of Armed Conflict provides a fresh take on the contemporary laws of war and is written for advanced level

students, academics, researchers, NGOs and policy-makers with an interest in the field.

Arabian Jazz: A Novel-Diana Abu-Jaber 2011-02-14 "This oracular first novel, which unfurls like gossamer [has] characters of a depth seldom found in a debut."—The New Yorker In Diana Abu-Jaber's "impressive, entertaining" (Chicago Tribune) first novel, a small, poor-white community in upstate New York becomes home to the transplanted Jordanian family of Matussem Ramoud: his grown daughters, Jemorah and Melvina; his sister Fatima; and her husband, Zaeed. The widower Matussem loves American jazz, kitschy lawn ornaments, and, of course, his daughters. Fatima is obsessed with seeing her nieces married—Jemorah is nearly thirty! Supernurse Melvina is firmly committed to her work, but Jemorah is ambivalent about her identity and role. Is she Arab? Is she American? Should she marry and, if so, whom? The Global Financial Crisis and its Budget Impacts in OECD Nations-John Wanna 2015-09-25 The global financial crisis of 2007-09 constituted the biggest shock to the economies of the OECD nations since the Second World War and caused most of their governments to move into intense crisis mode. They made significant adjustments to their fiscal policy regimes, including massive interventions to stabilize markets and economies. But how they reacted to the crisis, and what measures they took to deal with it, still underpin their economic and budgetary positions. This singular shock provides the editors and authors of this book with an intriguing opportunity to examine how different OECD budgetary systems performed.

Revisited- 2007 Established in 1748, Frederick County's fascinating heritage was shaped by agricultural, commercial, and industrial prosperity; the opening of routes west by wagon, water, and rail; Civil War battles and intrigue; and the nurturing of education and religion. This second volume includes historic images of a raging flood in Point of Rocks and a

devastating Frederick barn fire. It shows the thumbprints of pivotal national events in photographs like those of a German POW camp in Frederick. It glimpses into more personal moments in time as well: two young friends clowning around on a rooftop in 1930, students studying in their 19th century classroom, and the Colored Order of the Knights of Pythias gathering for a convention in 1925. Also featured are personalities like U.S. senator Charles "Mac" Mathias, musician Bion Firestone, and "Uncle Billy" Hilton, the "pretzel man," along with sports teams, students, congregations, organizations, and businesses that make up who we are and what we have become as a community.

B-Model Gromov-Witten

Theory-Emily Clader
2019-04-08 This book collects various perspectives, contributed by both mathematicians and physicists, on the B-model and its role in mirror symmetry. Mirror symmetry is an active topic of research in both the mathematics and physics communities, but among mathematicians, the "A-model" half of the story remains much better-understood than the B-model.

sunmoneynonline.com on

This book aims to address that imbalance. It begins with an overview of several methods by which mirrors have been constructed, and from there, gives a thorough account of the "BCOV" B-model theory from a physical perspective; this includes the appearance of such phenomena as the holomorphic anomaly equation and connections to number theory via modularity. Following a mathematical exposition of the subject of quantization, the remainder of the book is devoted to the B-model from a mathematician's point-of-view, including such topics as polyvector fields and primitive forms, Givental's ancestor potential, and integrable systems.

The World of Lore: Wicked Mortals-Aaron Mahnke

2018-05-29 A chilling, lavishly illustrated who's who of the most despicable people ever to walk the earth, featuring stories from the Lore podcast—now a streaming television series—including “Black Stockings,” “Half-Hanged,” and “The Castle,” as well as rare material. Some monsters are figments of our imagination. Others are as real as flesh and blood: humans who may look like us, who may walk among us, often unnoticed, occasionally even admired—but whose evil deeds and secret lives, once revealed, mark them as something utterly wicked. In this illustrated volume from the host of the hit podcast Lore, you'll find tales of infamous characters whose veins ran with ice water and whose crimes remind us that truth can be more terrifying than fiction. Aaron Mahnke introduces us to William Brodie, a renowned Scottish cabinetmaker who used his professional expertise to prey on the citizens of Edinburgh

and whose rampant criminality behind a veneer of social respectability inspired Robert Louis Stevenson's classic novella Strange Case of Dr. Jekyll and Mr. Hyde. Then there's H. H. Holmes, a relentless and elusive con artist who became best known as the terror of Chicago's 1893 World's Fair when unwitting guests were welcomed into his “hotel” of horrors . . . never to be seen again. And no rogues' gallery could leave out Bela Kiss, the Hungarian tinsmith with a taste for the occult and a collection of gasoline drums with women's bodies inside. Brimming with accounts of history's most heinous real-life fiends, this riveting best-of-the-worst roundup will haunt your thoughts, chill your bones, and leave you wondering if there are mortal monsters lurking even closer than you think. Gray's Pindaric Odes-

Frederick M. Keener 2012

More radically than had any contemporary English author's work, Thomas Gray's two Pindaric odes of 1757, effectively challenged readers' powers of comprehension, posing problems of reference as well as distinctly Pindaric problems of coherence.

Solving those problems calls for knowledge not widely had then, now, or in between."

Marine environment can be affected by several pollutants such as the presence of elements and their chemical species, pharmaceuticals, nanoparticles and other emerging contaminants. Environmental monitoring can be assessed by genomics, proteomics (i.e. redox proteomics), chemical speciation analysis and metallomics, metabolomics as well as other advanced strategies. The present book is a useful methodological tool for researchers and specialists in the field of

analytical chemistry, environmental sciences, biochemistry, genomics and toxicology. The book includes for the first time the methodological aspects and applications related to chemical speciation and -omics strategies applied to marine environment.

International approaches to prostitution-

Gangoli, Geetanjali 2006-05-31 What is to be done about prostitution? Is it work or is it violence? Are women involved in prostitution offenders or victims? Is prostitution a private or a political issue? The answers to these questions vary depending on many factors, including where in the world you live. This book provides a valuable, detailed international comparison of the laws, policies and interventions in eight countries across Europe (England and Wales, France, Sweden and Moldova) and Asia (India, Pakistan, Thailand and Taiwan). The countries were chosen because of their contrasting social policy and legislative frameworks. Specific topics covered

sunnoneyonline.com on

include national social and historical contexts in relation to prostitution; legal frameworks - with discussion of existing laws and policies and debates around legislation and decriminalisation; key issues faced - particularly relating to reasons for entering prostitution and analysis of policies and interventions. The case studies are brought to life by giving voice to the experiences of women involved in prostitution themselves together with the personal reflections of the authors. Aimed at a wide audience of students, academics, policy makers and practitioners, this book makes an important contribution to academic and policy debates in the fields of criminology, law, social policy, women's studies, sociology, politics and international relations.

Anchoring in Rock and Soil

The Big Split-Agnes Isnawangsih 2013-10-30 The

global financial crisis originated in advanced economies, but had a major impact on emerging markets. The impact, however, was not uniform. Even in a relatively homogenous group of countries such as ASEAN-4 (Indonesia, Malaysia, the Philippines and Thailand), there were considerable differences both in terms of instantaneous impact of the crisis and in terms of output performance relative to trend. There are several main reasons for the divergence. First, trade shocks had a larger impact on more open economies (Malaysia and Thailand). Second, countercyclical fiscal stimulus in Indonesia and the Philippines was larger and was sustained longer. Third, idiosyncratic factors pushed output up in Indonesia and down in Thailand. Such factors include investment-friendly structural reforms and fortuitously timed election spending in Indonesia, as well as political instability and natural disasters in Thailand.

Under Stress-David M. Andrews 2005-07-21 Can the political institutions of the transatlantic alliance endure the demise of the Soviet enemy? Did the Iraq crisis of 2002-3 signal the final demise of the Atlantic partnership? If so, what are the likely consequences? In this book a distinguished group of political scientists and historians from Europe and the United States tackle these questions. The book examines the causes and consequences of the crisis in Atlantic relations that accompanied the invasion of Iraq in March 2003. The authors' collective focus is not on the war itself, or how it was conducted, or even the situation in Iraq either before or after the conflict. Instead, the crisis over Iraq is the starting point for an examination of transatlantic relations and specifically the Atlantic alliance, an examination that is cross-national in scope and multi-disciplinary in approach.

He found out during his research that the best teams are the ones who take care of the most junior workers, leaders often sacrifice their commodity for the wellness of the group creating a "circle of safety" where confident teams help each other out and have great synergy.
