**An Arid Eden**-Garth Owen-Smith 2011-02-02 Two remarkable tales woven together - the story of the Kaokoveld, an arid eden in the remote north-west of Namibia, so nearly lost, but regained to become one of Africa's iconic wildlife tourism destinations, and also the story of a young man's search for an African way to do conservation in Africa. Garth Owen-Smith first visited the Kaokoveld in 1967. It was a life-changing experience. His unconventional ideas challenged both the conservation establishment and the former South African regime. Despite this, community-based conservation was pioneered in the Kaokoveld and today Namibia is a world leader in this field. But the early years - when the foundation for this ground-breaking approach to conservation was laid - are largely forgotten and untold. An Arid Eden: A Personal Account of Conservation in the Kaokoveld brings those years alive through the eyes of Owen-Smith, spanning four-and-a-half decades of extraordinary dedication, passion and achievement. The author and his partner Dr Margaret Jacobsohn have won some of the world's most prestigious conservation awards for their work in Namibia, which has always challenged conventional wisdom. The NGO they founded continues to break conservation, agricultural and rural development paradigms.

**Assessment of Fuel Economy Technologies for Light-Duty Vehicles**-National Research Council 2011-06-03 Various combinations of commercially available technologies could greatly reduce fuel consumption in passenger cars, sport-utility vehicles, minivans, and other light-duty vehicles without compromising vehicle performance or safety. Assessment of Technologies for Improving Light Duty Vehicle Fuel Economy estimates the potential fuel savings and costs to consumers of available technology

combinations for three types of engines: spark-ignition gasoline, compression-ignition diesel, and hybrid. According to its estimates, adopting the full combination of improved technologies in medium and large cars and pickup trucks with spark-ignition engines could reduce fuel consumption by 29 percent at an additional cost of \$2,200 to the consumer. Replacing spark-ignition engines with diesel engines and components would yield fuel savings of about 37 percent at an added cost of approximately \$5,900 per vehicle, and replacing spark-ignition engines with hybrid engines and components would reduce fuel consumption by 43 percent at an increase of \$6,000 per vehicle. The book focuses on fuel consumption--the amount of fuel consumed in a given driving distance--because energy savings are directly related to the amount of fuel used. In contrast, fuel economy measures how far a vehicle will travel with a gallon of fuel. Because fuel consumption data indicate money saved on fuel purchases and reductions in carbon dioxide emissions, the book finds that vehicle stickers should provide consumers with fuel consumption data in addition to fuel economy information.

**Myths, Lies and Old Age**-Bob Eccleston 2019-05-16 Myths, Lies and Old Age: a collection of poems by Bob Eccleston. Within these pages there are myths: some known, some newly created, some yet to occur and some which may prove to be reality. There are vistas of old age from a viewpoint which does not preclude a future or a sense of humour; where the use of set forms indicates maturity and balance. There are lies aplenty although different readers may have different views as to where they occur. There is love and murder, hope and despair, tragedy and comedy; even nonsense. There is a modicum of sex involving two amorous seals. In short, there is variety and, hopefully, enjoyment.

**Braxton Bragg**-Earl J. Hess 2016-09-02 As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

**The Ethanol Papers**-Marc J. Rauch 2020-01-10 In this brash and audacious debunking of the myths and manipulation that brought the world to oil addiction, alt fuel expert Marc J. Rauch brilliantly lays out how ethanol can change the planet for the better--and along the way helps us navigate the noise of petroleum advocates. The Ethanol Papers is a rough-and-tumble, no holds-barred crystallization of the ethanol vs. gasoline conflict. Written in plain jargon, non-scientists, non-academics, and politicians alike will find it compelling. Yet this is no "Idiots Guide to Biofuels" or "Alt Fuels for Dummies." Rather, The Ethanol Papers is the most in-depth and complete explanation of the ethanol-oil problem now available, targeted for smart people who demand facts.

**Life Interrupted**-Priscilla Shirer 2011-03-01 From telemarketers to traffic jams to twenty-item shoppers in the ten-item line, our lives are full of interruptions. They're often aggravating, sometimes infuriating, and can make us want to tell people what we really think about them. But they also tell us something quite important about ourselves. The prophet Jonah's life was interrupted by a clear call of God that made him mad enough and scared enough to run in the completely opposite direction. Yet it wasn't really an interruption. It was an opportunity for Jonah to be involved in something the likes of which the Old Testament world had never seen: national revival in a Gentile country. What if Jonah had seen God's interruption for what it truly was—a divine intervention that held more adventure and possibility than any other thing he could have been doing at the time? What could have felt any better than being directly in the center of God's will? Yet we play it that same way—always running from major pains and minor problems that just don't seem to suit us at the time. Who knows what we're missing by being so interruption avoidant? In this very personal account of opportunities lost and lessons learned, popular conference speaker and author Priscilla Shirer shows how to embrace the amazing freedom and fulfillment that comes from going with God, even when He's going against your grain. .

**Jonah Leader Kit**-Priscilla Shirer 2010-07-01 Jonah: Navigating a Life Interrupted - DVD Leader Kit by Priscilla Shirer helps a leader facilitate this women's Bible study experience and contains all that is needed to conduct the small group time. What do we do when God interrupts our lives? Many times, like Jonah, we run! In this 7-session Bible study, Priscilla redefines interruption and shows that interruption is actually God's invitation to do something beyond our wildest dreams. When Jonah was willing to allow God to interrupt his life, the result was revival in an entire city. Leader Kit Includes: \* Two DVDs \* One Member Book with leader helps

**Climate Change and Climate Modeling**-J. David Neelin 2010-12-16 Provides students with a solid foundation in climate science, with which to understand global warming, natural climate variations, and climate models. As climate models are one of our primary tools for predicting and adapting to climate change, it is vital we appreciate their strengths and limitations. Also key is understanding what aspects of climate science are well understood and where quantitative uncertainties arise. This textbook will inform the future users of climate models and the decision-makers of tomorrow by providing the depth they need, while requiring no background in atmospheric science and only basic calculus and physics. Developed from a course that the author teaches at UCLA, material has been extensively class-tested and with online resources of colour figures, Powerpoint slides, and problem sets, this is a complete package for students across all sciences wishing to gain a solid grounding in climate science.

**The People's Songs**-Stuart Maconie 2013-06-06 These are the songs that we have listened to, laughed to, loved to and laboured to, as well as downed tools and danced to. Covering the last seven decades, Stuart Maconie looks at the songs that have sound tracked our changing times, and - just sometimes - changed the way we feel. Beginning with Vera Lynn's 'We'll Meet Again', a song that reassured a nation parted from their loved ones by the turmoil of war, and culminating with the manic energy of 'Bonkers', Dizze Rascal's anthem for the push and rush of the 21st century inner city, The People's Songs takes a tour of our island's pop music, and asks what it means to us. This is not a rock critique about the 50 greatest tracks ever recorded. Rather, it is a celebration of songs that tell us something about a changing Britain during the dramatic and kaleidoscopic period from the Second World War to the present day. Here are songs about work, war, class, leisure, race, family, drugs, sex, patriotism and more, recorded in times of prosperity or poverty. This is the music that inspired haircuts and dance crazes, but also protest and social change. The companion to Stuart Maconie's landmark Radio 2 series, The People's Songs shows us the power of 'cheap' pop music, one of Britain's greatest exports. These are the songs we worked to and partied to, and grown up and grown old to - from 'A Whiter Shade of Pale' to 'Rehab', 'She Loves You' to 'Star Man', 'Dedicated Follower of Fashion' to 'Radio Ga Ga'.

**Kennedy's Way**-Alan Kennedy 2004 Twenty years have now passed since

the greatest period of European dominance by any English football club came to an end. Between 1977 and 1984, Liverpool won the European Cup an unprecedented four times - and it was an unlikely figure that dominated the headlines for the last two of those victories. Folk hero left-back Alan Kennedy - nicknamed Barney by fans after The Flintstones character due to his straightforward, no-frills approach to the game - scored the winning goal in the 1981 European Cup final against Real Madrid, as well as the nerve-twanging winning shoot-out penalty against AC Roma in 1984, a feat which secured his position in European football history. *Kennedy's Way* examines his illustrious career and provides a retrospective account of Liverpool's dominance during those years. Drawing on Kennedy's memories of the period, as well as those of other players and backroom staff involved with the Reds at that time, it is an irreverent, revealing account of the dressing room culture at the club while it was at the height of its powers. The book concludes with reflections on Kennedy's post-playing life and on the trajectory of Liverpool since the Heysel and Hillsborough tragedies, in 1985 and 1989 respectively, right up to the current struggles of Houllier's Liverpool.

**Ten Times Table**-Alan Ayckbourn 1978 The leading lights of the village have decided to hold a pageant of local history based on a somewhat vague event, "The Massacre of the Pendon Twelve". But there's a young left wing teacher on the committee who decides to turn it into a rally for proletarian revolution. Committee meetings become symbolic battlefields for conflicting views - the right wing faction being led by the Chairman's conservative wife. The event turns into a violent confrontation between the two extremes, with cataclysmic results. Police intervention brings matters to a relatively quiet conclusion, but already another pageant - Romans versus Britons - seems an attractive possibility.

**Trucking in British Columbia**-Daniel Francis 2012 Accompanied by hundreds of previously unpublished archival and contemporary photographs, award-winning historian Daniel Francis delivers a fascinating account of the first hundred years of trucking in BC. Beginning in Vancouver with James Starks first delivery van in 1907, motorized transport exploded in the province, soon traversing every dirt track, hauling logs on temporary plank roads and leading to a frenzy of experimentation and innovation from the failed Renard Road Train and early battery-operated vehicles to some truly impressive purpose-built trucks, many of them manufactured in BC.

**Mini Down Under**-Donn Anderson 2009-03-02 Mini Down Under traces the history of one of New Zealand's - and the world's - best-loved cars. More versions of the Mini were available in New Zealand than anywhere else, and the launching of the iconic car in February 1960 was a larger-than-life event. In this lively and personal story, the author tracks the Mini's life in New Zealand, the connection between Kiwi racing driver Bruce McLaren and the birth of the Mini Cooper, the heady days of competition success in the Antipodes, the local assembly and marketing of the classic original car and the eventual development into the latest generation Mini for a new century.
