Now in an easy-to-read and easy-to-navigate format over its 360 pages, this updated paperback includes current and extra information in a bid to improve the health and welfare of donkeys worldwide by sharing knowledge and providing further education. Technical colour illustrations have been included using images from the extensive libraries at The Donkey Sanctuary, as well as those private collections that belong to contributors. This book will also be available as translated versions over the following months. Created with heart and keen intelligence, The Clinical Companion of the Donkey has all the attributes of the animal it aims to aid, and will surely be the textbook of professionals involved with donkeys for years to come.</p>

<p>Faith Community Nursing-P. Ann Solari-Twadell 2019-08-31 A multi-authored book, with editors and authors who are leaders in Faith Community Nursing (FCN) that aims to address contemporary issues in faith-based, whole person, community based health offering cost effective, accessible, patient centered care along the patient continuum while challenging contemporary health policy to include more health promotion services. Twenty-five chapters take the reader from a foundational understanding of this historic grass-roots movement to the present day international specialty nursing practice. The book is structured into five sections that describe both the historical advancement of the Faith Community Nursing, its current implications and future challenges, taking into account the perspectives of the pastor, congregation, nurse, health care system and public health national and international organizations. The benefits of this book are that it is intended for a mixed audience including lay, academic, medical professionals or health care executives. By changing the mindset of the reader to see the nurse as more than providing illness care, the faith community as more than a place one goes to on Sunday and health as more than physical, creative alternatives for promoting health emerge through Faith Community Nursing.</p>

<p>Alexandra-Noor Nieftagodien 2008-11-01 Alexandra: A History is a social and political history of one of South Africa's oldest townships. It begins with the founding of Alexandra as a freehold township in 1912 and traces its growth as a centre of black working-class life through the early years before the Nationalist government, through the struggles of the apartheid era and into the present day. Declared as a location for 'natives and coloureds', Alexandra became home to a diverse population where stand owners, tenants, squatters, hostel-dwellers, workers and migrants from every corner of the country converged to make a new life for themselves near the economic hub of Johannesburg. The stories of ordinary people are at the core of the township's history. Based on numerous life-history interviews with residents and previously unexamined archive sources, the book portrays in vivid detail the daily struggles and tribulations of the people of Alexandra. A significant focus is the rich history of political resistance, in which political organisations and civic movements organised bus boycotts, anti-removal and anti-pass campaigns, and mobilised for housing and a better life for the township's residents. But the book also tells the stories of daily life, of the making of urban cultures and of the infamous Spoilers and Msomi gangs. Over weekends Alexandra came alive as soccer matches, church services and shebeens vie for the attention of residents. Alexandra: A History highlights the social complexities of the township, which at times caused tension between different segments of the population. Above all else, despite a long history of hardship and adversity, the community spirit of the people of Alexandra, expressed in a fiercely loyal love of their township home, has repeatedly triumphed and endured.</p>

The analysis presented in this report provides a regional perspective on how this crisis is impacting the member states of the five regional commissions of the UN, and examines the types and adequacy of responses at the national and regional levels. It suggests ways in which the Regional Commissions can use their collective strengths to prevent the economic crisis from becoming a human crisis.</p>
