Middle School Makeover-Michelle Icard 2016-10-04 Middle School Makeover is a guide for parents and educators to help the tweens in their lives navigate the socially fraught hallways, gyms, and cafeterias of middle school. The book helps parents, teachers, and other adults in middle school settings to understand the social dilemmas and other issues that kids today face. Author Michelle Icard covers a large range of topics, beginning with helping us understand what is happening in the brains of tweens and how these neurological development affects decision-making and questions around identity. She also addresses social media, dating, and peer exclusion. Using both recent research and her personal, extensive experience working with middle-school-aged kids and their parents, Icard offers readers concrete and practical advice for guiding children through this chaotic developmental stage while also building their confidence.

Human Stem Cell Manual-Suzanne Peterson 2012-10-22 This manual is a comprehensive compilation of "methods that work" for deriving, characterizing, and differentiating hPSCs, written by the researchers who developed and tested the methods and use them every day in their laboratories. The manual is much more than a collection of recipes; it is intended to spark the interest of scientists in areas of stem cell biology that they may not have considered to be important to their work. The second edition of the Human Stem Cell Manual is an extraordinary laboratory guide for both experienced stem cell researchers and those just beginning to use stem cells in their work. Offers a comprehensive guide for medical and biology researchers who want to use stem cells for basic research, disease modeling, drug development, and cell therapy applications. Provides a cohesive global view of the current state of stem cell research, with chapters written by pioneering stem cell researchers in Asia, Europe, and North America. Includes new chapters devoted to recently developed methods, such as iPSC technology, written by the scientists who made these breakthroughs.
