**The Marketer's Guide to Public Relations-**Thomas L. Harris 1991-02-07 The 1990s will mark an era of intense competition, both domestically and globally; businesses must win a share of the consumer's mind and heart and build strong consumer awareness and preference. However, in today's ``overcommunicated" society, mass and even target advertising lose some of their cost-effectiveness. That's where ``marketing public relations" (MPR) comes in, making the most of the strength of news, events, community programs, and other powerful communication modalities. Covers this emerging trend in public relations, showing not only why MPR helped companies gain a competitive edge, but also how it is used by its most sophisticated practitioners to get maximum mileage from product introductions, special events marketing, brand name associations and company reputation, how to extend a product's life cycle, defend products at risk, and more. Features examples and actual cases illustrating the success of MPR.

**Taking People with You-**David Novak 2012-01-03 "AN IMPORTANT BOOK ABOUT MOTIVATION FROM A PROVEN MOTIVATOR." —JACK WELCH Yum! Brands CEO David Novak learned long ago that you can't lead a great organization of any size without getting your people aligned, enthusiastic, and focused relentlessly on the mission. But how do you do that? There are countless leadership books, but how many will actually help a Taco Bell shift manager, a Fortune 500 CEO, a new entrepreneur, or anyone in between? Over his fifteen years at Yum! Brands, Novak has developed a trademarked program—Taking People with You—that he personally teaches to thousands of managers around the world. He shows them how to make big things happen by getting people on their side. No skill in business is more important. And Yum!'s extraordinary success (at least 13 percent growth for each of the last ten years) proves his point. Novak knows that managers don't need leadership platitudes or business school theories. So he cuts right to the chase with a step-by-step guide to setting big goals, building strong teams, blowing past your targets, and celebrating after you shock the skeptics. And then doing it again and again until consistent excellence becomes a core element of your culture.
