Mayas in the Marketplace-Walter E. Little 2010-07-05 Selling handicrafts to tourists has brought the Maya peoples of Guatemala into the world market. Vendors from rural communities now offer their wares to more than 500,000 international tourists annually in the marketplaces of larger cities such as Antigua, Guatemala City, Panajachel, and Chichicastenango. Like businesspeople anywhere, Maya artisans analyze the desires and needs of their customers and shape their products to meet the demands of the market. But how has adapting to the global marketplace reciprocally shaped the identity and cultural practices of the Maya peoples? Drawing on over a decade of fieldwork, Walter Little presents the first ethnographic study of Maya handicraft vendors in the international marketplace. Focusing on Kaqchikel Mayas who commute to Antigua to sell their goods, he explores three significant issues: how the tourist marketplace conflates global and local distinctions. how the marketplace becomes a border zone where national and international, developed and underdeveloped, and indigenous and non-indigenous come together. how marketing to tourists changes social roles, gender relationships, and ethnic identity in the vendors' home communities. Little's wide-ranging research challenges our current understanding of tourism's negative impact on indigenous communities. He demonstrates that the Maya are maintaining a specific, community-based sense of Maya identity, even as they commodify their culture for tourist consumption in the world market.

Braxton Bragg-Earl J. Hess 2016-09-02 As a leading Confederate general, Braxton Bragg (1817-1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

Television Program Master Index-Charles V. Dintrone 1996 Television history has become one of the hottest areas of research in popular culture. Because the field is relatively new and so wide-ranging, no matter what one is researching much of the relevant material will be found scattered through numerous other works, frustrating scholarly progress. This work makes the television researcher's job easier by providing a single index to 341 books that include information on 1,002 shows. Most of the books deal exclusively with television, though some autobiographies, biographies, Congressional hearings, and works on communication and the media are also indexed. For a show to be included, it must have been carried on NBC, CBS, ABC or Fox and must have been a series. Shows on PBS are generally not included, though exceptions have been made for Sesame Street and Mister Rogers' Neighborhood.
