The Private Lives of Birds-Bridget Stutchbury 2011-04-10 Biologist Bridget Stutchbury takes readers along on her escapades as a bird detective, stalking subjects through the woods for hours, taking blood samples from nestlings for DNA analysis, and mounting miniature tracking devices on tiny backs. She captures several young white-and-brown male purple martins and paints them the darker color of mature males to see if the painted youngsters are more successful than their unaltered peers in wresting away nest sites from older males. They are! The Private Lives of Birds is a treasure trove of fascinating insights into bird behavior. But understanding the social lives of birds does much more than slake our curiosity. Aware that many birds will not occupy an area unless other birds are already there, biologists used mirrors and two-dimensional cutouts to lure Atlantic puffins to establish colonies off the coast of Maine, getting curious puffins to visit the site and linger long enough to encounter a live bird. As Stutchbury says, "Trying to save birds without understanding what makes them tick is a shot in the dark ... birds are highly social, and their social needs are at least as important as their physical needs."

Following Polaris-Robert J. Berens 2001-09-20 Brought to Kenya from England as a child and then abandoned by her mother, Beryl is raised by both her father and the native Kipsigis tribe who share his estate. Her unconventional upbringing transforms Beryl into a bold young woman with a fierce love of all things wild and an inherent understanding of nature's delicate balance. But even the wild child must grow up, and when everything Beryl knows and trusts dissolves, she is catapulted into a string of disastrous relationships. Beryl forges her own path as a horse trainer, and her uncommon style attracts the eye of the Happy Valley set, a

decadent, bohemian community of European expats who also live and love by their own set of rules. But it's the ruggedly charismatic Denys Finch Hatton who ultimately helps Beryl navigate the uncharted territory of her own heart. The intensity of their love reveals Beryl's truest self and her fate: to fly. Set against the majestic landscape of early-twentieth-century Africa, McLain's powerful tale reveals the extraordinary adventures of a woman before her time, the exhilaration of freedom and its cost, and the tenacity of the human spirit.

Planning on the Edge-Nick Gallent 2006-09-27 More than a tenth of the land mass of the UK comprises 'urban fringe': the countryside around towns that has been called 'planning's last frontier'. One of the key challenges facing spatial planners is the land-use management of this area, regarded by many as fit only for locating sewage works, essential service functions and other un-neighbourly uses. However, to others it is a dynamic area where a range of urban and rural uses collide. Planning on the Edge fills an important gap in the literature, examining in detail the challenges that planning faces in this no-man's land. It presents both problems and solutions, and builds a vision for the urban fringe that is concerned with maximising its potential and with bridging the physical and cultural rift between town and country. Its findings are presented in three sections: the urban fringe and the principles underpinning its management sectoral challenges faced at the urban fringe (including commerce, energy, recreation, farming, and housing) managing the urban fringe more effectively in the future. Students, professionals and researchers alike will benefit from the book's structured approach, while the global and transferable nature of the principles and ideas underpinning the study will appeal to an international audience.

Trudeau and Our Times-Stephen Clarkson 1997-08-23 The classic two-volume study of Trudeau and his impact upon Canadian society and politics Volume 1: The Magnificent Obsession Winner of the Governor General's Award This volume examines the formative influences on Pierre Trudeau's childhood, his knight-errant youth and early manhood, his charismatic ascent to the Liberal Party leadership, and his dramatic first decade as prime minister. It concludes with his bittersweet triumphs in fighting off the separatists in the 1980 referendum campaign and his battle with provincial premiers to patriate the Canadian constitution. Volume 2: The Heroic Delusion Winner of the John W. Dafoe Prize for Distinctive Writing This volume describes in fascinating detail the abiding liberal Pierre Trudeau's quixotic confrontations with his neo-conservative opponents, Margaret Thatcher and Ronald Reagan. A masterful analysis of the country's political economy in the decades following World War II, it suggests that Trudeau's delusion was that Canada could pursue a policy independent of her neighbours to the south.

Memphis Movie Theatres-Vincent Astor 2013-11-18 Memphis has always been a theatrical town—a crossroads in the center of America for entertainment as well as commerce. Movies are among the many things that travel through the city, both for distribution and exhibition. Thousands of people who have lived here or just passed through, especially during and after World War II, found their way to the movie theatres. From the vaudeville palaces on Main Street to the nickelodeons on Beale Street, these theatres helped shape the culture of the city. Kemmons Wilson operated movie houses before he built the first Holiday Inn. Several movie theatres played roles in the life of Elvis Presley. W.C. Handy attended the opening of a theatre named for him. Local censorship practices influenced decisions in Hollywood, and the first multiplex in the region was built in Memphis.

Working with Children of Alcoholics-Bryan E. Robinson 1998 First published in 1989 when the plight of children of alcoholics was initially brought to public attention, Working with Children of Alcoholics remains an essential tool for professionals that specifically addresses the needs of children growing up in alcoholic families. Expanding from the original highly successful handbook, the Second Edition incorporates the latest research, including Rubin's pivotal work on transcendent children, Robinson and Rhoden place alcoholism in a larger North American cultural context. They examine the effects of alcoholism in four essential family tasks: creating an identity, setting boundaries, providing for physical needs, and managing the family's emotional climate. Further,

Elleander Morning-Jerry Yulsman 2015-11-24 A dying woman, given a second chance to relive her life, travels back in time. Her goal: the execution of an obscure Viennese artist named Adolf Hitler. Two generations later, the assassin's granddaughter is mystified to discover a

book relating the history of World War II — the chronicle of a conflict that never took place. Elleander Morning spans eight decades of the twentieth century, tracing two different timelines from two very different worlds and raising thought-provoking questions along the way. Part detective story, part thriller, and part romance, this alternative history won the 1986 Ditmar Award for best international fiction and the 1987 Kurd-Laßwitz-Preis. This edition features a new Introduction by Gavriel Rosenfeld, an expert on Nazi Germany and the Holocaust.

River ranger Mandy Tanner had no idea until days before a huge tournament in Salida, Colorado. True, the Arkansas River can be a man-eater, but the rapids weren't responsible for driving a hatchet into the neck of would-be competitor Howie Abbott—a secretive man who may have been cheating. While casting about for suspects, Mandy seeks clues from Abbott's family members, including her best friend, bartender Cynthia Abbott. But when Cynthia becomes the prime suspect, Mandy realizes that trolling for the true killer has plunged her way too deep into wicked eddies. A finalist for The Rocky Award for best mystery novel set in the Left Coast Crime Geographical Region

Being Leaders-Aubrey Malphurs 2003-09-01 What makes a leader a Christian leader? Too many churches and parachurch groups operate under secular leadership principles and strategies without considering what Scripture teaches. In this accessible and comprehensive book, leadership expert Aubrey Malphurs articulates a working definition of Christian leadership based on the Bible and his own extensive research. Malphurs begins by defining a uniquely Christian leader from the inside out, from godly character and commitment to pure motives and a servant attitude. He examines the leaders of the first-century church and then discusses qualities such as credibility, capability, and influence that are essential for successful leadership. Each chapter contains helpful questions for reflection and discussion. The appendix includes numerous audits to help readers evaluate themselves on various leadership components. Being Leaders is the first book of a two-part series on leadership. The companion book will address the how-to of building leaders.

A Case Study on the Impact of Weblogs on the Writing of Low-Level Learners in the University of Chile-Simon Higginson 2011-06-01 Since the turn of the century the use of computer-mediated-communication (CMC) has become more widespread in educational contexts and weblogs (blogs), one of the more popular forms of CMC (Bloch, 2007), have been the focus of numerous studies. However, whilst these studies have listed the potential benefits of blog use for language learners, few studies have offered any practical tips for educators who wish to implement the use of writing blogs in the EFL classroom. Moreover, the vast majority of studies have focused on the use of blogs with relatively high-level learners in academic contexts. This small-scale study focuses on how the use of blogs impact on the writing of a group of low-level learners in a tertiary EFL context in Chile. Moreover, it presents a tentative model to explain the different factors that contribute to writing development using weblogs as these learners grapple "not only with a written code but with a linguistic code that is still being acquired" (Raimes, 1985: 232). The findings report that blogs have the potential to aid low-level learners develop their L2 writing, and a number of suggestions are made that may help practitioners facilitate the process.

Statistics and Econometric Models: Volume 2, Testing, Confidence Regions, Model Selection and Asymptotic Theory-Christian Gourieroux 1995-10-26 This two-volume work aims to present as completely as possible the methods of statistical inference with special reference to their economic applications. The reader will find a description not only of the classical concepts and results of mathematical statistics, but also of concepts and methods recently developed for the specific needs of econometrics. The authors have sought to avoid an overly technical presentation and go to some lengths to encourage an intuitive understanding of the results by providing numerous examples throughout. The breadth of approaches and the extensive coverage of the two volumes provide for a thorough and entirely self-contained course in modern econometrics. Volume 1 provides an introduction to general concepts and methods in statistics and econometrics, and goes on to cover estimation and prediction. Volume 2 focuses on testing, confidence regions, model selection, and asymptotic theory.
