AIDS-The aids2031 Consortium 2010-12-09 AIDS is a continuing worldwide health crisis. Over 25,000,000 people have died from AIDS, and more than 33,000,000 are infected today. While treatments in the developed world have moved AIDS from a fatal to a chronic, highly expensive disease, it remains the sixth greatest cause of death globally and most of those infected in the developing world don't have access to treatments. Here, the AIDS 2031 Commission's experts report on the first 50 years of the AIDS pandemic: the 30 years that have passed since AIDS was first diagnosed, and the prospects and best plans to address the ongoing worldwide AIDS epidemic over the coming 20 years. The authors address the entire scope of the pandemic: basic science, public health, funding, treatment options, and social and societal impacts and review the full range of possible and recommended responses over the next two decades. They carefully assess the progress that has been made, and both persistent and emerging challenges. Written to be easily understandable by all readers, this book is the single best source of reliable information on where the pandemic stands today, where it's headed, and what can be done to create better outcomes between now and 2031.

The Gauguin Connection (Book 1)-Estelle Ryan 2012-08-13 Murdered artists. Masterful forgeries. Art crime at its worst. As an insurance investigator and world renowned expert in nonverbal communication, Dr Genevieve Lenard faces the daily challenge of living a successful, independent life. Particularly because she has to deal with her high functioning Autism. Nothing - not her studies, her high IQ or her astounding analytical skills - prepared her for the changes about to take place in her life. It started as a favour to help her boss' acerbic friend look into the murder of a young artist, but soon it proves to be far more complex. Forced out of her predictable routines, safe environment and limited social interaction, Genevieve is thrown into exploring the meaning of friendship, expanding her social definitions, and for the first time in her life be part of a team in a race to stop more artists from being murdered. The Gauguin Connection is an art crime novel with an autistic main character who explores the mystery of political intrigue, art heists, white collar crime, kidnapping and so much more! Historical Roots of the Urban Crisis-Henry L. Taylor Jr. 2013-06-17 This collection of 12 new essays will tell the story of how the gradual transformation of industrial society into service-driven postindustrial society affected black life and culture in the city between 1900 and 1950, and it will shed light on the development of those forces that wreaked havoc in the lives of African Americans in the succeeding epoch. The book will examine the black urban experience in the northern, southern and western regions of the U.S. and will be thematically organized around the themes of work, community, city buliding, and protest. the analytic focus will be on the efforts of African Americans to find work and build communities in a constant ly changing economy and urban environments, tinged with racism,hostility, and the notions of white supremacy. Some chapters will be based on original research, while others will represent a systhesis of existing literature on that topic.

George the Painter: A Bathroom Reader-George Frizzell 2013-03-15 In spring of 2006, George Frizzell, aka George the Painter, agreed to write a monthly column for "The Horse/Backstreet Choppers" magazine. The column quickly became George's podium, his opportunity to expound on everything from the over-use of cell-phones to his personal demons and health issues. To say that George has a way with words is a huge understatement: .." Little did I realize but every injury that I endured from some bike related mishap that I miraculously walked away from was never really forgotten. All the drunken cartwheels that I experienced when I was launched from my saddle during some drug and alcohol induced stupidity would be held in escrow only to be paid for later down the road..." "George the Painter - A Bathroom Reader," is five years worth of George's columns, roughly 75,000 words - and an additional 48 pages of color photos. And whether the topic is motorcycles, the posers who ride them or his recent trip from Arizona to the East Coast, the prose is entertaining and truly unique. George has a huge following, and after reading just a small sample of his writing, it's easy to see why.

Paediatric Clinical Examination Made Easy-Denis Gill 2017-03-09 Fully revised, this is an updated new edition of a much-loved book which has built a reputation for pithy, entertaining good sense over the course of six editions. ‘Children are different. Paediatrics is much more than medicine miniaturised.’ From reviews of the previous edition: ‘All in all a very handy book for the student, the resident or other professionals working with children. I had a lot of fun reading it.’ ‘The book is full of wonderful illustrations, and funny and profound advice with quotations, like the words of Sir Dominic Corrigan (1853): "The trouble with many doctors is not that they do not know enough but that they do not see enough", or the advice to teach thy tongue to say" "I do not know" (Rabbi Moses Maimonides or Rambam, 1135-1204). I have used this book for my final medical year paediatrics exams, the DCH and the MRCP and it has been a great help. It reminds us of the most important and basic things - history and examination, and of course a friendly demeanour.’ Short, manageable chapters Clinical examples of examination techniques Very helpful tips and topics section Clinical checklists Simply illustrated Updated throughout New section of ‘questions of fives’ questions Short glossary of Latin terms

The Ghosts of Varner Creek-Michael Weems 2012-02-01 Caution: Book contains adult content and themes. Reader discretion advised. In the summer of 1909, in the small town of Varner Creek, Texas, twelve year old Solomon Mayfield awoke one morning to find his mother and sister had disappeared. Through a series of cover-ups and denials, some aimed at protecting Sol, others at hiding the worst of secrets, Sol lived the rest of his life in a fog of half-truths and shadowed lies, haunted by ghosts of the dead with whom he suddenly found himself sharing an inexplicable bond with that he could never fully understand. But when Sol passes away as an old man so many years later, the truth is waiting for him, as are the ghosts of his past. Sol finally discovers what really happened that summer and it is a truth that will change everything he thought he knew about the life he lived and the people he thought he knew. For as Sol is about to find out, even the dead have secrets. Author's Note: 18+ only, please, as some of the subject matter is not suitable at all for younger readers. Also, a few comments noted book starts slow before reving up. The beginning becomes something different by the ending which is how it was written, but fair disclaimer to readers who hate slow starts . . . this one does lay a foundation before it gets going that some may find slower than to their liking. Also, The Ghosts of Varner Creek is more than a ghost story. It could fit into a number of genres . . . historical fiction, southern fiction, mystery, paranormal, and family drama. So for readers seeking a straightforward horror novel, I wouldn't want to disappoint as this isn't really

in that category. Otherwise, if you do read, I thank you in advance and hope you enjoy the book.
